PREFACE.

THE LATE MR. F. A. WALTERS was an indefatigable collector and student of coins. He specialised in the period extending from Edward I to Henry VIII, and contributed to the pages of the "Numismatic Chronicle" the following papers, among others—articles which have much increased our knowledge of, and interest in, the coins of the most fascinating epoch of our country's history, and which have been of much service to collector and dealer alike.

The papers referred to are :—

- 1902 Some Remarks on the last Silver Coinage of Edward III, and, the same year, The Silver Coinage of the Reign of Henry VI.
- 1903 The Gold Coins of Henry VI.
- 1904 The Coinage of Richard II.
- 1905 The Coinage of Henry IV.
- 1906 The Coinage of Henry VI.
- 1914 The Coinage of the Reign of Edward IV.

Many fine and rare coins were disposed of in Mr. Walters' previous sale, April, 1913, and at record prices, nevertheless there are many similar coins to be found among the lots now catalogued as Mr. Walters' interest in collecting continued after his first sale, even to the extent of repurchasing some of the rare pieces.

Among the desirable lots now offered for sale are :—

Lot 4, Carausius silver denarius; Lot 10, Unique bronze of Allectus; Lot 84, Harthacnut penny of London; Lot 98, William I penny of Dover; Lot 129, Empress Matilda penny from the Nottingham find; Lot 135, Henry III penny with jewelled crown; Lots 137-142, A series of groats of Edward I; Lot 168, Edward III London penny of the First Period, 1327-1335; Lots 220 and 221, Richard II pennies of London and Durham; Lots 230 and 231, The heavy pennies of Henry IV from the Highbury find. The Henry IV groats, Lot 236, etc., especially Lot 242 from the Hampshire find. A very complete series of groats and smaller pieces of Henry V and VI, notably the York groat with lis each side of bust, the groat with bust between saltires (305), the post-Restoration half groat (340), and the almost unique Bristol halfpenny (345). Edward V is well represented by five groats, and Henry VII by a long series of groats and two of the very rare shillings.

There are also some interesting coins among the Anglo-Gallic and Scottish series.
